AYESHA NOOR

.NET / Full-Stack Developer

ayeeshanoor2207@gmail.com | 0331-8083394 | Liaquatabad, Karachi | github.com/aysha-noor | Portfolio

PROFESSIONAL SUMMARY

Software Engineering and Data Science student and full-stack developer with hands-on experience building .NET (ASP.NET) applications and RESTful APIs backed by SQL Server, alongside PHP/MySQL projects and responsive frontend development using HTML5, CSS3, Bootstrap, and JavaScript. Working knowledge of Angular and TypeScript for building UI components. Delivered a complete ASP.NET recruitment system for a freelance client, covering data-driven forms, REST APIs, and a searchable listings module. Also works as a Sales Agent, bringing client-communication and target-driven experience. Comfortable working across the stack, from database design to UI implementation, and eager to grow into a full-time .NET / Full-Stack Developer role.

SKILLS

Backend & .NET: .NET Development, ASP.NET, ASP.NET Core MVC, C#, Entity Framework Core, REST APIs, SQL Server, PHP, MySQL, MongoDB
Frontend: Angular (basic), TypeScript (basic), HTML5, CSS3, Bootstrap, JavaScript, Responsive Web Design
Cloud & Tools: Microsoft Azure, Git, GitHub, Postman, WordPress, MS Office
Other: Object-Oriented Programming (OOP), SEO Basics, Cross-browser Compatibility, Customer Communication

WORK EXPERIENCE

Sales Agent - A-Forward *2026 - Present*

- Contact prospective customers, explain products and services clearly, and answer questions to convert enquiries into sales.
- Follow up on leads and existing customers to build relationships, handle objections, and work towards sales targets.
- Maintain accurate records of customer interactions and sales activity, and communicate professionally with customers and the team.

Freelance .NET / Full-Stack Developer - Remote Client Projects *2024 - Present*

- Developed an **online recruitment system using ASP.NET and SQL Server**, including candidate data forms, RESTful APIs, and a searchable listings module - core project applying .NET across the full stack. Live: hr-recruitment.runasp.net.
- Built and maintained an online shopping cart application using PHP, HTML, and MySQL, covering product listing, cart logic, and database-driven checkout flow.
- Built a responsive static website for a client (Shalee Pizza) covering menu display, contact, and mobile-first layout using HTML5, CSS3, and Bootstrap.
- Coordinated directly with freelance clients to gather requirements, deliver revisions, and meet project deadlines independently.

PROJECTS

FurShield - Pet-Care Web Application | *ASP.NET Core MVC, EF Core, SQL Server*

- Full-stack platform for pet owners, veterinarians and animal shelters with a product store and role-based login, built for the Aptech TechWiz competition. Live: furshield1.runasp.net.

EventSphere - Event Management Application | *ASP.NET*

- Web-based event management project built with ASP.NET and deployed online. Live: eventsphere1.runasp.net.

CampusCoin - Student Savings Platform (Group Project) | *C#, ASP.NET Core MVC, EF Core, SQL Server, Bootstrap*

- Platform for online students to learn how to save and manage their money, with ASP.NET Core Identity authentication and separate Admin and Student roles.

EDUCATION

BS Data Science *In Progress*
Virtual University of Pakistan

Software Engineering Diploma *In Progress*
Aptech Learning, NN Center

Intermediate in Commerce *2024 - 2026*
Shaheed-e-Millat Govt. College

Matriculation, Computer Science - A Grade *2024*
Dhaka Secondary School, Karimabad
